

## **COMPANY PROFILE**

### **HISTORY**

Pure Pharmaceuticals Company began trading in October 2002 as an importer of chemical raw materials. The activities of the company expanded significantly over the first five years to a point where over 200 items are regularly sold on an ex-stock basis. Products were principally imported from Asia but expansion of product range

### **OBJECTIVES**

It is the policy of Pure Pharmaceuticals to provide a superior standard of service to our customers. As Pure Pharmaceuticals begins a new 4 year plan Australia will move out of recession resulting in accelerated growth for the company. It is the intention of management never to compromise our standard of service as the business expands through planning and good logistics management, Pure Pharmaceuticals will continue to outperform our competitors in the market place.

### **SERVICE**

The main factor behind the continued expansion of Pure Pharmaceuticals is service. Senior management personally oversees the processing of each customer's order. This has significantly reduced supply lead times to a point where over 95% of all ex-stock sales are delivered the following day after the order has been placed. Customers purchasing items on an indent basis are kept informed as to the shipping schedule and expected delivery date of their order. This "hands on" approach to service has enabled Pure Pharmaceuticals to become well regarded in the industry as a reliable supplier of raw materials.

### **QUALITY**

Quality systems and procedures are in place at Pure Pharmaceuticals which conform to our customer's individual requirements. This ensures that Pure Pharmaceuticals only distributes materials sourced from Quality Assured suppliers. In addition to this, the management of Pure Pharmaceuticals come from technical backgrounds within the Chemical Industry segments where our customers operate. This ensures a common sense approach to the supply of quality raw materials. The staff at Pure Pharmaceuticals Company is well trained in the nature of each product together with its application.

## PRODUCT LIST

### PHARMA PRODUCT / FOOD ADDITIVES

SODIUM CYCLAMATE NF13	CALCIUM LACTATE FEED/FOOD/PHARMA	CITRIC ACID ANHYDROUS BP/USP
CITRIC ACID MONOHYDRATE BP/USP	DEXTROSE ANHYDROUS INJ.GRADE	DEXTROSE MONOHYDRATE ORAL
GLYCINE USP	SORBITOL 70% LIQUID/CRYSTALLINE	L-CYSTINE EP6
L-LYSINE HCL FCCIV/AJ197	GLUTAMIC ACID	SODIUM GLUTAMATE
POTASSIUM CITRATE BP98	POTASSIUM SORBATE FCCIV	CALCIUM SORBATE FCCIV
AMMONIUM BICARBONATE FOOD GRADE	BENZOIC ACID BP2000	SODIUM BENZOATE POWDER & GRANULE BP2000
SODIUM CITRATE BP2000	SORBIC ACID FCCIV	SODIUM ERYTHORBATE FCCIV
FUMARIC ACID FOOD/TECH	SODIUM GLUCONATE TECH/FOOD/USP24	GLUCONIC ACID
CALCIUM GLUCONATE	SODIUM SACCHARIN BP2000	LACTIC ACID
SUCRALOSE	SODIUM DIACETATE(SDA)	CASEIN
CORN STARCH	ASCORBIC ACID (VC) BP/USP	CALCIUM PROPIONATE

### PHARMA PRODUCT / CHEMICAL MATERIAL

AMMONIUM BIFLUORIDE 98%	CHROMIC ACID 99.5%	CALCIUM FORMATE 98%
SODIUM FORMATE 95%	CARBOXYMETHYL CELLULOSE (CMC	PENTAERYTHRITOL 95%/98%
CALCIUM CHLORIDE 95% /65%	CYANOGLUANIDINE 99.5%	SODIUM DICHLOROISOCYANURATE (SDIC) 56%/60%
CAUSTIC SODA 96%/99% (FLAKES/SOLID)	PHOSPHOROUS ACID 99% MIN	SODIUM HEXAMETAPHOSPHATE 68%
SODIUM METABISULPHITE 97% MIN	SODIUM SULPHIDE (RED/YELLOW) 60%	SODIUM PYROPHOSPHATE
SODIUM NITRITE 99%	SODIUM THIOSULFATE 99%	THIOUREA 99% MIN
SODIUM BICARBONATE 99%	SODIUM ALUMINATE SNA-130 80%	TRISODIUM PHOSPHATE
SODIUM TRIPOLYPHOSPHATE	ACRYLAMIDE 98%	ZINC OXIDE 99%/99.5%/99.7%
SODIUM ACID PYROPHOSPHATE	FURFURAL 98%	POTASSIUM HYDROXIDE 90%
NEOPENTYL GLYCOL(NPG) 99% MIN	SODIUM HYDROSULPHITE 88%、 90%	PROPYLENE GLYCOL (PG) 99.5%
SODIUM NITRATE 99%	HYDROGEN PEROXIDE 50%	ALUMINIUM SULFATE 50%
AMMONIUM PERSULFATE 98.5%	FORMIC ACID 85%	MELAMINE 99.8%
SULFAMIC ACID 99.5%	BENZOYL PEROXIDE BPO75%	STEARIC ACID
POTASSIUM DICHROMATE 99.7%	MAGNESIUM SULFATE HEPTAHYDRATE	SODIUM PERCARBONATE
SODIUM DICHROMATE 98%	SODIUM STEARATE	MALEIC ANHYDRIDE 99.5%
PARAFORMALDEHYDE 92%/95%	SODIUM SULFOCYANATE	FURFURYL ALCOHOL 98%
DIMETHYL OXALATE (DMA)	SODIUM CHLORITE 25% / 31%	ZINC STEARATE TECH GRADE
PHOSPHORIC ACID 85%	SODIUM ACETATE TRIHYDRATE TECH GRADE	CALCIUM STEARATE
ISOCYANURIC ACID	L-TARTARIC ACID	MICROCRYSTALLINE WAX 80°
TERPENE T100	ANTIOXIDANT 264	ADIPIC ACID 99.7%

# PURE PHARMACEUTICALS

## PRODUCT LIST

### PHARMA PRODUCT / SOLVENTS

TRIBUTYL PHOSPHATE ( TBP )	TRI-ISOBUTYL PHOSPHATE ( TIBP )	TRIPHENYL PHOSPHATE ( TPP )
TRI ( 2-CHLOROISOPROPYL ) PHOSPHATE ( TCPP )	TRIETHYL PHOSPHATE ( TEP )	ETHYL ACETATE
TRI ( 1 , 3- DICHLOROPROPYL ) PHOSPHATE ( TDCPP )	TRICRESYL PHOSPHATE ( TCP )	BUTYL ACETATE
DIOCTYL PHTHALATE(DOP)	DIETHYLAMINE	BENZALDEHYDE
GLUTARALDEHYDE 50%	TRIETHYLAMINE	MONOISOPROPYLAMINE 70%
MONOETHYLAMINE	BENZYL ALCOHOL	CYCLOHEXANONE
ALIPHATIC ALCOHOL(C16-C18)	BUTYL OLEATE	BENZYL BENZOATE
ISOPROPANOL	PEG600 MONO OLEATE	

### FOOD PRODUCT / ANTIOXIDANTS & PRESERVATIVES

E300 Ascorbic Acid	E200 Sorbic Acid	E301 Sodium Ascorbate
E202 Potassium Sorbate	E313 Erythorbic Acid	E211 Sodium Benzoate
E314 Sodium Erythorbate	E212 Potassium Benzoate	E320 BHA
E270 Lactic Acid & Buffered	E321 BHT	E296 Malic Acid
E325 - 327 Lactates Metabisulphite	E223 Sodium	E330 Citric Acid
E3310 - 333 Citrates	E334 Tartaric Acid	

### FOOD PRODUCT / HYDROCOLLOIDS

E401 Sodium Alginate	E967 Xylitol VITAMINS	E406 Agar Vitamin B12
E407 Carrageenan Vitamin B12a	E410 Locust Bean Gum Vitamin C	E412 Guar Gum
E414 Gum Arabic	E415 Xanthan Gum	

### FOOD PRODUCT / FLAVOURINGS

E460 Microcrystallized Cellulose Vanillin	E466 CMC Ethyl Vanillin
