ПРОДУКТЫ / МАШИНЫ

Supplies top quality glass mold and its associated equipment for the container and tableware industries. Products include all the various mold equipments (blow mold, blank mold, plunger etc.) for IS, H-28, MDP machines.

Also supplies machineries such as press machine, annealing lehr, tempering lehr, blowers, air-reversal system

Turnkey solutions can also be provided including glass container plants, glass tableware plants, glass tubing plants etc.

ИСТОРИЯ И ПРОДУКТЫ

JCL (Jochenlee) was founded in 1952 as a 3 -man workshop and has today grown into the largest glass mold maker in Asia, and one of the leading glass mold suppliers in the world. We had over 50 years of experience in mold production and had been supplying top quality mold to the Asian, Middle East, Africa, Europe and America Market. Beside mould manufacturing, JCL also manufactures a wide range of machineries and industrial equipments for the glass industry, including press machine, fire polisher, annealing lehr, tempering lehr, blower, air-reversal system etc.

Today, JCL continues an aggressive policy of competing against other mold suppliers by means of superior quality, state-of-the-art technology, competitive pricing and fast delivery. You will be guaranteed the best quality of mold products when you purchase from us. Our headquarter factory, located in Taiwan, is called Jocharfon, and is responsible for the production of our mold products to the world. Our factory is equipped with the most advanced CNC and CAD/CAM technology. We have over 62 CNC machines, including CNC Machine Center, CNC Mill, CNC Turning, CNC Engraver, CNC EDM, CNC High Speed Mill (HSM) etc, and various advanced CAD/CAM softwares that are able to accept data input from any format. Our foundry, located in Taiwan, is called Zhenya, and is responsible for the production of cast iron material for our mold products. Zhenya foundry has over the years developed high quality material of international standard such as JC-5, JC-8 etc. We also had a branch office called JCL Engineering, which is located in Singapore. JCL Engineering is in charge of sales of our mold products and machineries for overseas world market outside Taiwan. We also provide mold design services free of charge for our customers at JCL Engineering.

Since 2000, JCL has expanded its manufacturing operation into China (in Shanghai and Yantai), joint-venturing with our partners to produce machineries for the glass industry such as press machine, annealing lehr, tempering lehr, blowers, air-reversal system etc.

Overall, JCL continues to develop and upgrade its technology and facilities in order to maintain a competitive advantage. We are a company that listen to our customers and try to satisfy our customer's need as much as possible. We have the expert know-how and experience not only in glass mold design and manufacturing, but also in areas of glass forming to produce top quality glass. In addition, we can provide a wide range of machineries for glass container and tableware manufacturing, as well as turn-key solutions for newcomers in the glass forming industry. Please contact us in Singapore for more information.
